

- ✓ As a class we took part in a virtual writing workshop with author Anthony Garvey. We focused on creating suspense through use of dialogue and vocabulary choices. The written work we produced we shared with the author and are looking forward to hearing our feedback.

- ✓ As a class we took part in an active travel month and had to record the various ways we travelled to school (e.g. walking, scooter, cycling).
- ✓ Also, as part of Safer Internet Day, we worked in small groups to create recipes for spreading kindness online to help build and foster respectful relationships.
- ✓ During our Fire Education lesson with Hampshire and Isle of Wight Fire Service, we learned how to stay safe (i.e. charging devices; fire evacuation plans).

- ✓ As a class we took part in a variety of different activities to support Mental Health Week. This week helped us to focus on strategies that are important to help keep our minds healthy when we may be feeling anxious or unsettled.

Learning Principles Overview Spring 1 Year 6

- ✓ We took part in a debate for Safer Internet Day and discussed the significance of respect online and whether the online world was all fun and games for everyone. During our Fire Education lesson with Hampshire and Isle of Wight Fire Service, we learned about living respectfully in our community (i.e. not playing with matches or other activities that can cause fire).

- ✓ The School Captains in Year 6 were responsible for working with all classes across the school to create our school's Mental Health Charter. We gave each year group questions to think about and helped to collate their responses together.
